INDIANS GO TO COURT.

TO PRESERVE RESERVATION.
BY THE NEW ASSOCIATED PRESS—P.M.J.
WASHINGTON, June 6.—Suit was brought yesterday in the Supreme Court of the District of Columbia by Little Wolf and other Indians representing the Kiowa, Comanche and Apache tribes, asking the court to enjoin Secretary Hitchcock, Commissioner Hermann of the General Land Office, and Commissioners Jones, the Indians offering carrying into effect the law relative to opening of lands of those Indians located in Oklahoma Territory to settlement.

They also ask that the law authorizing the opening of the lands be declared void on the ground that the cession by the Indians professing to represent the tribes was unauthorized.

HOMeward-bound Troops.

ALL ARE DUE THIS MONTH.
BY DIRECT WIRE TO THE TIMES]
WASHINGTON, June 6.—[Exclusive Dispatch.] The War Department is straining every nerve to get volunteers home by June 30, when their term of enlistment runs out. It expects to do notwithstanding a few embarrassing delays. The transport train left Nakatomi this morning with about 140 volunteers, and it is expected the veterans will be home in time to see the eighteenth or nineteenth day, which would bring the troops to San Francisco by June 24 or 25.

The Kintuck, the horse ship, on which one company of the Thirty-eighth Regiment is quarantined at Nagasaki, and cannot be released before June 25, will be in San Francisco on the 26th. The Chinese are serving their life imprisonment in Shanghaipai prison for American convicts.

Col. McKibben's Transfer.

WASHINGTON, June 6.—[Exclusive Dispatch.] Col. W. C. Chambers McKibben, Twelfth Infantry, has been relieved from command of the Department of Texas and ordered to assume command of the regimental district of the Pacific. He will succeed in command by Col. James Wheeler of the Twenty-third Cavalry.

Secretary Root Misquoted.

WASHINGTON, June 6.—In view of several representations made in Hawaii regarding the interpretation by the Secretary of War to the Cuban commissioners of the Platt amendment, it can be stated authoritatively that the Secretary did not deviate from the position that the President had no power to change an act of Congress. It is held here that the amendments which the Cuban convention made to the Platt bill and incorporation of conversations with Sec. of State Root did not represent his views of the amendment, nor was he correctly quoted in the alleged state-

BY THE NEW ASSOCIATED PRESS—P.M.J.

SAN FRANCISCO, June 6.—[Exclusive Dispatch] From Akron, Mo., comes word that the total value of imports in 1899, according to a statement made public by the division of insular affairs of the War Department today. During the period started on Jan. 1, the value of \$15,921,923 came into the Philippines from the United States, while in 1898, the figure was \$911,621.

The total value of merchandise imported from all countries from January to October of 1899 was \$17,137,991, as against \$14,163,32 during the same period of the preceding year. The value of imports of \$15,921,923, or 21 per cent European and Asiatic countries concerned sent over \$15,000,000 worth of the total importation in 1899. The value of imports from the United States represent direct shipments only, and do not include merchandise from the United States imported to Hongkong and then shipped to Manila.

The comparative figures as to exports to the rest of the world show an increase double that noted in the imports. The total value of exports from the Philippines to other countries in 1899 was valued at \$17,888,200; for 1898 it was valued at \$11,992,011, thus showing an increase of \$5,896,189, or 42 per cent. Exports to the United States, however, showed a decrease of \$76,949 in 1899, as compared with the same period of 1898, while the other hand exports to Europe and Asiatic and African and South African countries showed material increases in each case, the exports to Europe increasing from \$4,461,169 in 1898 to \$6,991,169 in 1899.

The exportation of horses from the Philippines during the first three-quarters of 1899 was valued at \$10,245,474, against \$5,402,950 during the same period of 1898.

DISCUSSING THE TARIFF.

MR. TAYLOR AGAINST TRUSTS.
BY THE NEW ASSOCIATED PRESS—P.M.J.
WASHINGTON, June 6.—The Industrial Commission at its session today considered the tariff question, with interests referring to trusts the witnesses were Congressmen Robert Taylor of Ohio, and George Gunton, president of the New York Institute of Mining and Metallurgy. They took the position that any discussion in Congress of the tariff at this time would have a damaging effect upon the country, and that it was best to let it stand as it was.

Taylor, who is married to a young Illinois man who fell in love with her while on a hunting trip, Mrs. Stallion was, it is said, jealous of her daughter because of her beauty and popularity.

TERRIFIC RAIN STORM.

Wind and Water Damage Property and Cause Loss of a Number of Lives Around Ripley, O.

BY THE NEW ASSOCIATED PRESS—P.M.J.

REIPLEY (O.) June 6.—A terrific storm, accompanied by a heavy wind, visited this section last night, doing great damage to property and probably causing the loss of number of lives.

The wife and daughter of John Hett of Poston lost their lives in the storm, the daughter being found floating in the water. The body was then thrown into the Illinois River.

There is a great excitement and a lymphatic condition within the next twenty-four hours. All hope is to be married to a young Illinois man who fell in love with her while on a hunting trip. Mrs. Stallion was, it is said, jealous of her daughter because of her beauty and popularity.

INTO CROW'S NEST PASS.

NORTHERN PACIFIC'S NEW LINE.
BY THE NEW ASSOCIATED PRESS—P.M.J.

GREAT FALLS (Mont.) June 6.—The organization of the Montana and Great Northern Railway, articles of incorporation of which were filed in the state, concluded the work of the past six months that the Great Northern had acquired control of the Crow's Nest Pass coal fields, across the line of the vast timber land in the northwestern part of this State. James N. Hill, T. J. Sawyer, and M. D. Grover of Minnesota, and G. T. Gross of the Northern Pacific of Montana, are the incorporators of the new road, which is practically an extension of the Great Northern into the territory.

Charles J. C. Wilson of the North Carolina Commission, speaking of a uniform classification of freight, recommended that Congress pass a law making uniform the rates of freight on all lines of commerce.

Chas. E. C. Wilson of the North Carolina Commission, speaking of a uniform classification of freight, recommended that Congress pass a law making uniform the rates of freight on all lines of commerce.

PORTSMOUTH (O.) June 6.—During the heavy storm here Robert Lawrence of South Portsmouth sought shelter in a barn and was killed by lightning.

FURTHER FATALITIES.

BY THE NEW ASSOCIATED PRESS—P.M.J.

CINCINNATI, June 6.—Up to mid-day no confirmation could be obtained of the visit of the Mayflower to Venezuela to keep in touch with the situation there, and a part of the general plan to our flag in West Indian and southern ports. At the same time it was reported that the grip of the Mayflower will have the effect of dispelling the idea which has been prevailing in Venezuela that Major Lopez was sent here for the visit of the Scorpion and other American warships to Venezuelan waters. The Mayflower is a small craft usually employed by the service of Gov. Alvaro of Puerto Rico. He was killed in a field near Remington.

TO SHOW OLD GLORY.

MARINE VESSEL GOING SOUTH.
BY THE NEW ASSOCIATED PRESS—P.M.J.
WASHINGTON, June 6.—It is understood by naval officials in authority that the purpose of the visit of the Mayflower to Venezuela is to keep in touch with the situation there, and a part of the general plan to our flag in West Indian and southern ports. At the same time it was reported that the grip of the Mayflower will have the effect of dispelling the idea which has been prevailing in Venezuela that Major Lopez was sent here for the visit of the Scorpion and other American warships to Venezuelan waters. The Mayflower is a small craft usually employed by the service of Gov. Alvaro of Puerto Rico. He was killed in a field near Remington.

WASHINGTON NOTES.

KINTUCK IN QUARANTINE.
BY THE NEW ASSOCIATED PRESS—P.M.J.
WASHINGTON, June 6.—The War Department has been informed that the transport Kintuck is in quarantine in the harbor of Nagasaki, and will not be allowed to depart until the 13th inst., owing to the alleged case of plague among her crew.

Lieut. Townley Convicted.

WASHINGTON, June 6.—News has been received here through official channels that Lieut. Richard H. Townley of the navy has been convicted by court martial of killing his superior officer. The charge on which Lieut. Townley was court martialled was in connection with the attempt to assassinate the Emperor of Manilla. The sentence must be approved by the President to become effective.

Inquiry Into Fire.

WASHINGTON, June 6.—A naval board of inquiry will be assembled at San Francisco to investigate the explosion which occurred yesterday at the Mare Island navy yard. Admiral

O'Neill of the Bureau of Ordnance has not yet been officially advised of the explosion.

The magazine at San Francisco is the largest one in the Pacific, containing a large capacity, in order to supply the ships in Pacific waters. Fortunately all projectiles and munition are kept in detached buildings, so that the damage to the powder is not expected to result in a total loss of ammunition.

Yesterday's Bond Purchases.
WASHINGTON, June 6.—The Secretary of the Treasury has bought \$185,750 in short-term bonds, \$40,000 short-term to \$106,856, and the balance in short-term to \$113,806.

Five Pardons Granted.

WASHINGTON, June 6.—The President today acted upon fourteen applications for pardons. He commuted four sentences and granted five pardons. Among those pardoned are two men who were condemned by the United States Consular Court at Shanghai in 1898 of the murder of a Chinese on the American ship Dosing in the harbor. W. C. Chou, an American, was sentenced to life imprisonment in Shanghai for American convicts.

ANOTHER VERSION.

WASHINGTON, June 6.—[Exclusive Dispatch.] The War Department is straining every nerve to get volunteers home by June 30, when their term of enlistment runs out. It expects to do notwithstanding a few embarrassing delays. The transport train left Nakatomi this morning with about 140 volunteers, and it is expected the veterans will be home in time to see the eighteenth or nineteenth day, which would bring the troops to San Francisco by June 24 or 25.

The Kintuck, the horse ship, on which one company of the Thirty-eighth Regiment is quarantined at Nagasaki, and cannot be released before June 25, will be in San Francisco on the 26th and this company will be sent to San Francisco by the 26th.

the Northern Pacific board of directors under the reconstruction which is now under way in accordance with the agreement between the Union Pacific interests and Mr. Hill. This left the selection of the Northern Pacific board to the discretion of the Northern Pacific, and all the names will be agreed to by the time he reaches this country.

"Mr. Vanderbilt has not given his assent to the election of the Northern Pacific board, so far as he could be learned today. If he declines, Mr. McKeown Twombly will be asked to go into the board. Both Mr. Vanderbilt and Mr. Twombly are directors of the Chicago and Northwestern. Their election to the Northern Pacific board will not, however, indicate an interest of the Northern Pacific in the Chicago and Northwestern. The two companies have secured the favorable report on its incorporation in the Senate.

"The new corporation to be formed will be known as the Northern Pacific Railway Company, with a capital stock of \$500,000, which can be increased to \$1,000,000 later.

The corporators are Bridgeport and Derby men. New Haven, however, is not behind the company, which is now engaged in large undertakings on the northern coast of South America.

A COLORADO DYSPERTIC.

The Hon. Moses Hallett, a lawyer of Denver, delivered an address yesterday before the graduating class of the law school of the University of Colorado, in the course of which he "broke out" into a very foolish and a very unjudicious tirade against the policy of the government, with regard to the Philippines—a policy which, it is not out of place to observe, has recently received the sanction and endorsement of the Supreme Court of the United States, the highest judicial body in the world. It is at least a fair presumption that the Supreme Court contains, in the aggregate, as much judicial wisdom as is represented in the person of Hon. Moses Hallot of Colorado. The closing words of Mr. Hallett's harangue are quoted in the telegraph dispatches as follows:

"And so it appears that the powers of earth and air are again arrayed as they have always been arrayed, against the cause of civil liberty. The spectacle presented is that of a nation in rebellion against absolute power and submission. Its independence of such power by force of arms; afterward a government established in protest against absolute power and professing to rule only by the consent of the people and according to their will an autonomous government which claimed only the right of self-rule for the people, and disclaimed authority over other lands and over other people."

"Such was the United States of America at the end of the eighteenth century. One hundred years later, the hand, the need for economy on the part of the city is so painfully noticeable that the city fathers have been driven to their wits' end to devise ways and means of saving over the deficiencies. To the disinterested observer it appears as if there were several things which the city needs more urgently just now than the Sycamore Grove property. The deal would, doubtless, be a profitable one for the owners of the land, and for the street railroad company, but these, of themselves, should not be sufficiently weighty reasons to influence the Council in expending a considerable amount of money upon an unnecessary luxury at a time when the city treasury is in a short of funds. If the City Council is particularly desirous of furnishing a playground to the children, then for 10 per cent. of the proposed expenditure a first-class playground could be fitted up in one of the existing parks that would be available to ten times as many children as live near the Pasadena avenue grove."

"No fleet the works of man
To seek earth's aim."

"This nation, baptised in the blood of freemen a short century back, and dedicated to the cause of liberty for men, now crumbles into the slough of despondency, sinking on the sands of time to mark the course of man's inhumanity to man."

"The time will come—and it will not be long in coming—when even the Hon. Moses Hallett will be heartily ashamed of having appeared in public as the utterer of such silly and mal-evilous 'rot.'

The man who imagines, or pretends to believe, that this nation is crumbling, has crumbled, or is in the remotest sense likely to crumble, into "the slough of despond." Is affected with a most acute case of moral and intellectual strabismus. We are not in the crumbling business. We do not propose to enact the role of a "ruin on the sands of time." Ruins are picturesque enough, in their way. But we are not in the ruin business, any more than we are in the crumbling business.

As for the inhabitants of the Philippines, whose cause Mr. Hallett professes to champion, the vast majority of them, today, are thankful that they are under American protection. Since they have begun to comprehend what American sovereignty signifies, they are coming to recognise the fact that they are infinitely better off under American direction than they could possibly be under any government of their own devising. In this respect, their perceptive and reasoning faculties are far superior to those of Hon. Moses Hallett, the would-be statesman of Colorado.

Every man of clear mental vision and of common sense knows—whether he is willing to admit it or not—that there is no desire nor purpose on the part of our government to rule the Philippines, or any other people, "with the power of the sword." The events which have brought these people under the flag of our country have at the same time conferred upon them the inestimable advantages of the highest forms of civil liberty, which are theirs to possess and enjoy, if they so elect, in as complete a degree as these blessings are enjoyed by the people of the United States—who are the freest as well as the most progressive people on earth.

Instead of wronging these people of the Pacific Isles, we have conferred upon them, in bringing them under our flag, and in offering to them the full enjoyment of the liberties which we enjoy, the greatest honor that can be conferred upon any people. As the President has so well said in substance, American liberty does not lose any of its force and effectiveness when transplanted to other lands.

month ending March 31, 1901, had 186 deaths, death-rate, 47.56.

The condition of Havana with regard to yellow fever is described as most encouraging. There were, during the month only two cases of yellow fever and no deaths. This is the smallest number of yellow-fever cases for April on record. Maj. Gorgas says:

"We went from the 8th of March to April 30 with no cases, a period of forty-three days. In 1900 the longest period was from March 26 to April 1, both inclusive, seven days. As the population subject to yellow fever, is considerably larger now than at that time, I think this indication very favorable. I think it also indicates that the measures taken are successful, with regard to killing mosquitoes in and about the infected areas, are having good results. The two cases in April occurred on the 29th and the 31st; since that time we have had no cases. We again commence the month with no yellow fever in the city. On account of the favorable sanitary condition of the city, the national authorities deferred their quarantine from April 1 to May 15, which is a very great benefit to us all in travel. The report for contagious diseases shows no smallpox; the last case occurred in the city in July, 1900.

"The amount of sanitary work continues large. We are not now doing much cleaning of houses with our own force as formerly. I have transferred about two-thirds of these men to a new gang, headed by a sergeant, and the rest to a new gang, headed by a sergeant. The report for contagious diseases shows no smallpox; the last case occurred in the city in July, 1900.

"There are several things that should be carefully considered before this sum of money is voted by the Council. The first question to consider is: What urgent need there is for a children's playground at the site indicated, and the second: Can the city afford the expense just now?

The city of Los Angeles now owns

public parks—including Griffith Park

—to the extent of 8740 acres, of which less than 5 per cent. has been im-

proved, not counting the gum trees

that have been planted on some of the hills in Elysian Park. The greater part of Elysian Park, and all of Griffith Park, embracing 3540 of the 3740 acres, remains in a state of nature.

There is not even a decent driveway

connecting these parks with the heart

of the city. The people of East Los

Angeles have two large parks at their doors—the Eastside Park, one of the most attractive and highly improved

breathing places in the city, on the east, and Elysian Park one the west.

Not only this, but the section around

the proposed new park is to a great

extent a natural playground, where the rolling hills are covered in

springtime with nature's wild blossoms, and children may roam unchained among the shrubs and camp beneath the trees.

The need for such a new park is by

no means apparent, while, on the other

hand, the need for economy on the

part of the city is so painfully no-

ticeable that the city fathers have

been driven to their wits' end to de-

sign ways and means of saving over

the deficiencies. To the disinterested

observer it appears as if there were

several things which the city needs

more urgently just now than the Sycamore

Grove property. The deal would,

doubtless, be a profitable one for the

owners of the land, and for the street

railroad company, but these, of them-

selves, should not be sufficiently

weighty reasons to influence the

Council in expending a considerable

amount of money upon an unneces-

sary luxury at a time when the city

treasury is in a short of funds. If

the City Council is particularly de-

sirous of furnishing a playground to

the children, then for 10 per cent.

of the proposed expenditure a first-

class playground could be fitted up in

one of the existing parks that would

be available to ten times as many chil-

dren as live near the Pasadena ave-

nue grove."

Americans in Distress.

Great events, whether of a joyful or sad nature, crowd each other so fast over the telegraph wires nowadays that a great calamity is soon forgotten, except by those who are the direct sufferers. Already the appalling disaster which recently overtook the city of Jacksonville, Fla., rendering 10,000 people homeless, has been almost forgotten by a majority of the people of the United States. Not so, however, by the unfortunate sufferers, who are reported to be in a desperate condition. A representative sent from the Merchants' Exchange and Chamber of Commerce of New York to investigate affairs at Jacksonville, asserts that, though there was comparatively small loss of life, the financial loss was even greater than that sustained in the Galveston flood, and says that relief must be given. Mayor Bowden of Jacksonville declares that "the situation is alarming; that thousands of homeless and destitute, and that the whole nation should know the truth."

A committee of well-known Los Angeles citizens has been appointed to receive and forward contributions to Jacksonville.

The chairman of the committee was for several years a pastor in the afflicted city. He will be found at the Hotel Broadway, where he will be pleased to furnish any desired information, or contributions may be paid to the Los Angeles National Bank, which has consented to act as treasurer. It is true that the business men of Los Angeles have

numerous calls upon their public

spirit and charity, yet many of them,

we are sure, will feel like sparing a few dollars for these unfortunate people on the other side of the continent, who have been made homeless in a

few hours.

STATE SNAPS.

Santa Barbara girl has just fallen

her to \$60,000. Now, boys, wake up!

Three loaves of bread for 10 cents is

the price of the staff of life in Hol-

lywood. Nearly every house in

Havana has a cesspool and these cess-

pools are ideal breeding places for

mosquitoes. The oil in this way runs

into the cesspool and kills the larvae.

I have recently examined several of

the main sewers that empty into the

bay, and have seen a large number of

"vras" floating out, showing that a

considerable number are being killed by this method.

THE PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Board of Public Works will today discuss the advisability of including in street-car franchises a provision whereby a 4-cent fare will be secured in the future.

The monthly report of the health department shows a decrease in the death rate in Los Angeles.

The District Attorney made a motion yesterday to dismiss the Compton forgery case, and Judge Shaw has it under advisement.

Horace Pausa, who alleges that his wife has been badly faithless to him, received a decree from her yesterday on the ground of her representations in setting a daughter free.

Jonathan Jeffries, charged with seduction under promise of marriage, is not to be tried and was discharged yesterday.

C. Magness, known as "Dago Joe," was on yesterday for extortion, but jurors wouldn't agree. He will be tried again.

Guselle Nelson was found guilty of producing a witness in the Churchill case in Justice Austin's court yesterday.

Virginia Graves, the woman in the Churchill case, was fined \$1 yesterday for practicing palmistry without a license.

AT THIS CITY HALL
S HALL LOS ANGELES
HAVE FOUR-CENT FARE?

**BOARD OF PUBLIC WORKS WILL
DISCUSS IT TODAY.**

**Death Rate Decreased Last Month.
Park Funds Short—Government Col-
lecting Vital Statistics—Break in the
Outfall Sewer Repaired Yesterday.**

Small Los Angeles have a 4-cent street-car fare?

The Board of Public Works will vote on this question at its session today, and it is presumed that the members will stand strictly by a plan whereby it is intended eventually to compete street franchise rights with such cities as San Francisco.

The question will come before the Board of Public Works when they today take up the notice of sale for a double-track franchise on Adams street from the intersection of Western Avenue to the city limits.

Upon the application of Mr. Summer, the City Council Monday instructed the City Attorney to prepare a notice of sale for this franchise.

Today, and act on favorably by that committee, will doubtless be published by the Council next Monday.

Mr. Summer has appealed to the City Attorney to exclude the 4-cent fare provision, and will, it is expected, make similar request of the Board of Public Works. In so far as the City Attorney can be concerned, there will be a 4-cent fare provision, but one favorable to the draft of a notice which he furnishes to the Board of Public Works.

It is understood that the members of the council are inclined to the 4-cent fare provision, and will recommend it to the Council.

VITAL STATISTICS.

GOVERNMENT WANTS THEM.

William F. Kirk, special agent of the United States Department of Labor, yesterday looking up municipal statistics to be published in the September Bulletin of the department.

It was in the Health Office that Mr. Kirk second most of his information, and he gave the information to the department to pay particular attention to vital statistics.

Heretofore Mr. Kirk has been engaged in investigating certain in the Pacific Coast States, and he will probably start work when his present mission is finished.

The investigation will be conducted in the draft of a notice which he furnishes to the Board of Public Works.

It is understood that the members of the council are inclined to the 4-cent fare provision, and will recommend it to the Council.

HEALTH REPORT.

DEATH RATE DECREASES.

According to the monthly report of the City Health Officer, given out yesterday, there were in Los Angeles during May 16 deaths, from all causes; 1,000 deaths in the city, and 22 of the three Pacific Coast States outside of Los Angeles, leaving 109 other parts of the country.

The 16 deaths in the city were less than last year.

Los Angeles' pulmonary consumption division follows: Natives of Los Angeles, 1; natives of the Pacific Coast outside of Los Angeles, 4; from other parts, 22; of foreign descent, 109; total, 144.

The births during May, as reported by the department, were 2,000.

The report gives numerous other vital statistics, and shows a large amount of work on the part of W. H. McGill, director of the department.

TUNNEL NEARLY COMPLETED.

Work on the Broadmoor tunnel side is rapidly nearing completion, and will be finished by the end of the week. The walk is of cement eight feet wide, and extends the entire length of the west side of the conduit.

Next week the face of the walls will be covered with stucco, and the tunnel will be macadamized.

It is expected that the tunnel will be completed and open to the public by the middle of July.

CITY FUNDS SHORT.

When the office of the City Treasurer closed last evening there was a shortage in four of the park funds which, if not remedied by the Finance Committee of the City Council, will cause a reduction in the amount of these park funds.

The report of the park funds which are overdrawn, and the respective shortages are as follows: East

Los Angeles, \$5,11; Echo Park, \$1,12; Elysian, \$7,47; Westlake, \$5,11. All the park funds are provided for to such

an extent that the fiscal year can be closed without a shortage.

There are several funds in which money is lying idle and cannot be used. The remedy for the park fund deficiency is to make special transfers at the end of this month, so that the June demands may be satisfied. The shortages hereupon will be greatly enlarged by the June demands.

The fire-department fund is in such straits that it is bound to be overdrawn the end of the fiscal year, and the cash fund is overdrawn \$5,000 more.

INCORPORATIONS.

ARIZONA COMPANIES ON FILE.

The Randolph-Santa Fe Reduction Company, incorporated under the laws of Arizona, has certified copy of its articles of incorporation with County Clerk Bell yesterday, under the requirements of the new law by the recently established. The capital stock is \$100,000, divided into 100 shares.

The directors are J. N. Buckley, Rochester, N. Y.; Albert M. Rose, New York; W. R. Wood, Toledo; W. Jones, J. T. Hall, Barstow, Calif.; Rose, Los Angeles. The stock actually subscribed is \$70.

SEWER BREAK REPAIRED.

The superintendent of the outfall sewer was yesterday engaged in repairing a break which was discovered the day before. The break is near Ingleside, and is thought to have resulted from rotten staving. The City Engineer and his chief deputy will visit the place and make an investigation tomorrow.

During the summer season a part of the sewage is used for irrigation in the valley, and at that point is used. By its drying out, it is thought by the City Engineer that rot may have caused the staving. The break was not serious, and has been mended.

STREET-CAR FRANCHISE.

Among other things to be considered by the Board of Public Works today will be street-car franchises. W. E. Dunn, Esq., is to appear before the board and state the railway companies' side of the case.

AT THE COURT HOUSE
MOTION TO DISMISS
THE COMPTON CASE.

**DEFENDANT HAS LAIN IN JAIL AL-
MOST FOUR YEARS.**

**Twice Convicted of Forgery He May
Escape Further Prosecution by Reason
of Absent Witnesses—Court Dis-
trict Attorney's Motion Under Advi-
sement.**

HUSBAND'S DENIAL. N. Covarria, whose wife was recently sent to the penitentiary by reason of a conviction of selling marijuanna, has filed a suit for divorce against his husband to recover damages in \$200, alleged to be due for improper excavations on lots in Foster street, made for the purpose of obtaining gravel for grading.

SUIT ON BOND. The city of Los Angeles has filed a suit against C. L. McCord and his bondsmen to recover damages in \$200, alleged to be due for improper excavations on lots in Foster street, made for the purpose of obtaining gravel for grading.

THE PARAGON OIL COMPANY. Recently incorporated under the laws of Arizona, has filed a certified copy of its articles of incorporation with County Clerk Bell yesterday, under the requirements of the new law by the recently established. The capital stock is \$100,000, divided into 100 shares, of which amount \$100 has been subscribed. The directors are Frank A. Marcher, Robert C. Marshall, C. White, W. V. Morrow vs. Elizabeth M. Morrow.

MUGENI TRIAL. C. E. Marshall, president of the Elsinore Oil and Development Company, incorporated in Arizona, has filed a copy of its articles in this country, naming its principals and places of business in Los Angeles and Phoenix, and stock \$100,000, divided into 100 shares, of which amount \$100 has been subscribed. The directors are Frank A. Marcher, Robert C. Marshall, C. White, W. V. Morrow vs. Elizabeth M. Morrow.

THE BLISS & BLUNDERS. Suits in divorce have been filed yesterday by Mary P. Chase against T. C. Chase, Esq., of Los Angeles, Louis G. Larson and W. V. Morrow vs. Elizabeth M. Morrow.

THE HARTS CITATION DROPPED. Judge Shaw made a formal order yesterday discharging the citation against John S. Hart of Pasadena. Hart had filed a complaint by the Bank of California, was examined in the Township Court yesterday on two charges of obtaining money under false pretenses by the Bank and making it available to him.

THE SUIT ON BOND. The city of Los Angeles has filed a suit against C. L. McCord and his bondsmen to recover damages in \$200, alleged to be due for improper excavations on lots in Foster street, made for the purpose of obtaining gravel for grading.

THE MUGENI TRIAL. CASE OF "HUNG JURY."

C. E. Marshall, formerly a deputy constable, who is down on the street by the terrorizing name of "Dago Joe," was on trial before a jury in the criminal court yesterday, under indictment of the grand jury for extortion. The alleged offense occurred on February 23 of the present year, and the man who was tried is the same person who was not notified of the date of her examination, though he had called her physically by phone the previous evening.

SCHOOL ELECTION IN PASADENA TODAY.

FIRST UNDER PROVISIONS OF THE NEW CHARTER.

Mr. August Lindner Searching for his Sponsee, a One-armed Dairymen—Liquor Dealer Causes Arrest of a Customer—Brief News Notes.

prizes to be distributed by July among the people who have been canvassing for it. Options consist of land, oil stock, pleasure trips, partnerships and a number sometimes alluded to as "the world." Among the latter there is a great and most variety, particular mention being made to the following—not because they represent so much money of the other prizes, but because they are really desirable and

prizes of Southern California, is under contract for winners in the collection contest, consisting of a dozen photographs to be taken to the order winners. Who are the winners?

Dairyman DISAPPEARS.

August Lindner, a dairymen whose home is on Calico street, near Morton Avenue, North Pasadena, left here early this morning and did not return late in the afternoon. He had not gone far away, he went, and has been carrying on an excited hunt for him all day. She says he had quite a sum of money when he left home, and it is feared that he has been taken by some swindler.

The new addition to the postoffice will be ready for occupancy next week, affording much-needed room for the business department, and making possible a more decided change in the arrangement of the office. A new treasure vault will be built soon, after which the money order, register and safe will be moved to a distance to permit changes to be made in the front of the building.

Pasadena United Way, No. 151, Ancient Order Knights of Pythias, C. S. Ryan; F. G. Graham; W. J. Fred Adams; Recorder, C. S. Canfield; Financier, J. H. Baker; Receiver, W. J. Ross; Guide, G. M. Boston; Inside Workman, M. L. O'Neil; Vice Chairman, F. L. Orr; Trustee, O. T. Nay.

E. H. May, cashier of the First National Bank, has returned from the bank where he was born, and has but one leg, the left one having been amputated. He was a hard worker, and had been in the habit of riding his bicycle, after work, with his cows, afterward placing the same in a cooler and returning to bed to ride again at 7 o'clock. He arose as usual this morning, and was unable to get up, when the family discovered that he was not to be found. He had left in his room, and was never seen again. His wife, who is his brother, Mrs. G. W. Markham, will leave for his Wisconsin home.

Dr. C. J. Fraser and bride have gone to Oneida county, N. Y., where they will remain this summer.

INES AND MINING ON THE PACIFIC COAST.

LOS ANGELES EXHIBIT AT INTERNATIONAL MINING CONGRESS.

Great Activity in Arizona—Bay Mine, in Utah and New Mexico—Strike in the O. K.—Mendocino County—Mining Notes.

Reports received by the Southwest Miners' Association, Los Angeles, very clearly indicate that the fourth annual session of the International Mining Congress, which convenes at Los Angeles on June 10, will be largely attended and be productive of more substantial results to the mining industry of the Pacific Coast, and, indeed, of all the United States, than any of the three previous ones.

The delegation from Los Angeles is a strong one, and all the members of the O. K. will go to make a gallant fight in their city, as the meeting place of the miners of the West.

It is known, moreover, that there will be no contention between Pacific Coast delegates on this question: they will all, it is believed, be a unit in a vote for Los Angeles. And it is gratifying to know that the exhibit of the minerals of the Comstock and the Nevada region will be the best yet made; one that will in some measure do credit to this region, and reflect favorably upon the mineral resources. That a good exhibit will be altogether due to the Southwest Miners' Association.

MINING IN ARIZONA.

Mining has never been more active in Arizona, and the miners of the state, activity increases. Development is discussing bodies of valuable ore, encouraging the investment of capital, a very large proportion of which is coming from the East.

THE RAY MINES.

The Arizona Blade of Florence, in a recent issue stated that responsible persons have agreed to build a smeltering plant in the Miners' Mine, located in the Miners' Mine district, and that the company, operating in Pinon county, will pay \$10,000 per month for the use of the mine.

The company, which has a large amount of gold in its veins, will be able to produce a large amount of gold.

A report from Parral announces the sale of a half interest in the Aurora mine for \$25,000 gold. The mine is owned by Mr. T. W. Foster. The property, only lately opened up, is in the Minas Nuevas district.

UTAH MINES.

The Con. Mercur Gold Mines Company, operating in Piney county, has a proposal to place the mine on a paying basis inside of one year if the company would put up \$20,000 to start the work.

The Con. Mercur Gold Mines Company will complete its new 50-ton concentrator at Longfellow during the first half of next month.

STRIKE IN THE O. K.

A report from Salt Lake City states that the directors of the United States Mint Company, Birmingham, have voted to erect a 100-ton smelter from plans furnished by Mr. Fisher. Arrangements have been made to buy high-grade ore, and it is estimated that the smelter will be granted. Mr. Blair informs the paper that the development work in the mill will be continued, though the mill will be closed down for a time.

THE COLES.

Review states that a good deal of development is being done north of Bisbee, and several parties, five or six miles from town, are working in good ore.

The Modern Concentrator Company will complete its new 50-ton concentrator at Longfellow during the first half of next month.

THE RAY.

The Ray will be reopened in the near future. In the meantime it is believed that the company will be reorganized with the Lewishow, the New York copper and holding company, as the Ray will be a like amount, binding themselves to pay \$20,000 at the end of the year they have failed to do what they have agreed to do.

The paper in a later edition says: "We can now positively assure that Mr. Colquhoun's report on the Ray is correct, and that experts who subsequently examined the property all corroborate him." This being true, it may be assumed that the operations of the Ray will be resumed in the near future.

The Ray will be reopened in the near future. In the meantime it is believed that the company will be reorganized with the Lewishow, the New York copper and holding company, as the Ray will be a like amount, binding themselves to pay \$20,000 at the end of the year they have failed to do what they have agreed to do.

BREVITIES.

When moving, save all odds and ends of clothing and furniture for Good Samaritan department of Bethlehem Missionary Church for distribution among the needy. Tel. John 26 and Marion 212.

We need two congenial people to complete party for two weeks' trip to Oregon, going by rail. June 10.

For time, while Mr. Thompson, who resides, has commodious quarters alongside the Union League of San Francisco, and has the backing of that organization.

Young Republicans.

Herbert F. True, first vice-president of the Young Men's Republican Club, who is known throughout the State of San Francisco, arrived at the Van Nuys yesterday, and while in this city will consult with leading young Republicans here with a view to forming permanent organizations of the young Republicans of the State and bringing about closer affiliations between the various Republican clubs. He will also visit Santa Ana, San Diego, and other towns which have Republican clubs, during his stay in Southern California. The Fremont Club, over which Mr. True presides, has commodious quarters alongside the Union League of San Francisco, and has the backing of that organization.

For time or arrival and departure of Fe trains, see "Time Card" in day's Times.

There are undelivered telegrams at Western Union Telegraph office A. C. Denman, H. S. Woodrow, A. Alicia Roth and L. B. Hobday. The monthly meeting and entertain-

ment of the Cambro-American Society will be held at No. 120½ South Spring street, this evening.

GREGORY MILLIONS.

Contesting Widow Gets One-third of Chicago Pioneer's Estate by the Final Settlement.

BY THE NEW ASSOCIATED PRESS—A. M. CHICAGO, June 6.—Final settlement of the sensational litigation over the distribution of the estate of Alvin Gregory, the millionaire stock-and-bonds commission man and cattle owner, came yesterday with the filing of four instruments in the recorder's office. By the terms of these instruments, Mrs. Martha A. Gregory gets one-third of the estate, and the remaining two-thirds are to be divided among twenty-eight heirs.

Gregory died August 22, 1897, as was then supposed, without leaving either a will or a petition to set aside the letters of administration and to grant them to her. After a long and sharp legal contest the heirs became satisfied with the result. Mrs. Gregory entered into an agreement whereby she should have her one-third of the estate, and the filing of deeds yesterday completed the arrangement with the terms of this agreement.

Allen Gregory was about 70 years old at the time of his death. He had lived in Chicago for nearly half a century and was one of the founders of the stock yards.

DR. BOND A SUICIDE.

Noted English Surgeon and Analyst Leaps to His Death from Window of His Residence.

(By THE NEW ASSOCIATED PRESS—A. M. LONDON, June 6.—[By Atlantic Cable.] Dr. Thomas Bond, a well-known surgeon and analyst, committed suicide today by throwing himself from a third-story window of his residence.

He was a member of the Gladstone's cabinet for some time. Dr. Bond, besides being the late Mr. Gladstone's surgeon, was noted in connection with investigations and discoveries in the cases of several sensational crimes, notably the Lefroy, Lamson and Camp murders.

NITER DISCOVERY.

Southern California seems bound to lead the State, in mineral, as well as agricultural wealth. Peter Walters of this city, who first located and worked the great "Red Crown" mine, near the Colorado River, has recently discovered immense beds of rich niter in the southeastern part of the State. He leaves on Monday next to open up the property.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

Julius Matter, aged 35, a native of Illinois, and Sarah A. Coburn, aged 25, of New Haven, Conn.; both residents of Oxford.

Josias Lutz, aged 26, a native of Switzerland, and Martha Price, aged 25, of Los Angeles.

Arthur R. Rhoades, aged 31, a native of Pennsylvania and a resident of Los Angeles; Anna Maria, aged 24, a native of Michigan, and a resident of Tacoma, Wash.
